with good attendance and a sell out of Mart tables.

The Mart opened Friday evening after much scurrying of Mart table holders to get their clocks and watches inside before an approaching thunderstorm poured rain outside.

Our theme was Banjo clocks with a most impressive display of rare banjo clocks from miniatures to full size very early period banjos.

Mr. Jerry Faier presented a work shop on the Mart floor with much information on "Problems with Pendulums". Also presenting a work shop was Mr. Roger Schroeder on wood case refinishing and restoration.

A well attended Breakfast Buffet was held Saturday morning. Dr. Fred Ingram, our National Representative, addressed the group concerning National Headquarters activities and plans. Mr. Larry James gave a program with slide transparencies entitled "Plane Time", concerning the importance of time associated with instruments used in the Air Industry. A drawing for cash door prizes created excitement before adjourning the meeting to re-open the Mart.

Our Chapter and Co-host Chapters 51, 58, and 91 wish to thank all who attended and participated in our Regional.
