The Heart of America Chapter held its regular June meeting on Sunday, June 11, 1972, at the Johnson County Library, Antioch Branch.

Some of the members had returned early from the National Convention and reported about the big exhibit and mart. Other members had called in with glowing reports on the National Convention in Jackson, Mississippi.

The chapter members discussed future programs and displays and ways to create interest in chapter meetings. The chapter decided to hold a big silent auction.

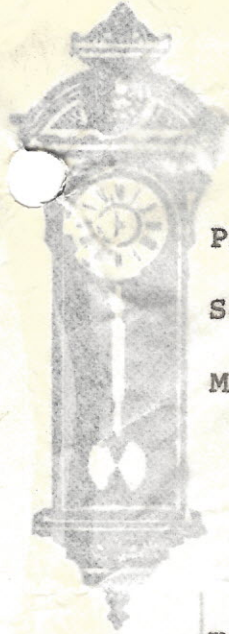

Some of the interesting programs which will be presented in the near future relate to putting pivots on shafts, making verges, bushing clocks, veneering cases, and troubleshooting movements.

Committee assignments were announced and Jack R. Brown of Wichita, Kansas showed the works and movements of a figure eight calendar clock he is building which is a copy of a Seth Thomas Figure 8.

Several interesting display items were discussed and refreshments were served by Carol Belt.

Respectfully submitted,

FLORENT WM. WAGNER
Secretary-Treasurer
