13001 N La Montana Drive
Fountain Hills, AZ
(480) 816-5200**

**Remember to bring items for our
Show and Tell
and the
Silent Auction**

President's Message

I hope that everyone is doing well! We had an excellent meeting at Fountain Hills last month. Good show-n-tell and an excellent presentation by Dave Shields!

This month we need to have a serious discussion regarding the potential for a 2023 Sunshine Regional. So far, I have not received feedback regarding anyone willing to help with the planning tasks in the months leading up to the event. That's where a lot of the work is! We will always have people willing to help during the show, but we need people to prepare and plan ahead of time!

Be forewarned - - - without that volunteer help, there will not be a 2023 Regional! Frank, who has performed above and beyond the call in past years, will help, so you would not be "adrift" on your own. But Frank cannot do it all himself again this year! Think about it. Do you want 2023 to be the first year (excluding past COVID delays) that we did not hold an annual Sunshine Regional in Arizona? It's all up to.....**YOU!**

Now, getting back to this month's meeting,..... Bring your baubles and bangles for our Show-n-Tell! And all those items gathering dust on your shelf might be excellent candidates for our Silent Auction.

We still need presentations for the months of September and November. Please kindly consider sharing some of your horological knowledge with the group. (Don't worry. We don't bite!)

Looking forward to seeing you on July 9th at 9:00 AM!

Jim Powell
President

Educational Presentation

Making and Restoring Reverse-Painted Clock Glasses

by Jim Powell

Jim employs a modern technique that requires very little “artistic” talent, and only a color printer, a PC with photo editing software (many programs are free), and easily-obtainable wet decal transfer paper. The entire process will be explained in great detail, with actual samples for you to see. This will be a LIVE as well as a PowerPoint presentation and is guaranteed to be interesting and entertaining.

Shown below is a banjo clock reverse-painted bottom glass.
