

The Howard Banta Alarm Clock Chapter

Chapter 178 of the National Association of Watch and Clock Collectors

www.accl178.org

September 2014

Presidents' Message

My wife and I enjoyed the trip to Milwaukee for the National Convention greatly. We had no trouble with our truck or trailer and spent two weeks not only enjoying the convention but also exploring the great old city of Milwaukee. Next year the Convention is in Chattanooga Tennessee and I encourage any who can do so to attend. They hosted a very enjoyable National in 2007 and I expect no less next year.

The end of another year is getting close. That means it is time for an election of Chapter 178 officers. I have been asking of volunteers in every newsletter and have had no response. There is a slate of proposed officers for 2015 but they are the same ones who have been doing this for many years and they are getting mighty tired.

President Vince Angell
Secretary / Treasurer Mike Wilson
Newsletter Editor Bob Linkenhoker

We also should have someone to monitor the NAWCC Message Board and answer any questions about Alarm Clocks.

If you are willing to serve in one of these positions please contact me at rlink3@juno.com or by phone at 951-898-5825 and let me know. Keep in mind that the Chapter can not survive without volunteers

There will be a formal ballot attached to the next newsletter asking for your vote.

Till next time
Bob Linkenhoker

ALL OF THE CLOCKS FEATURED IN THIS EDITION ARE SUBMITTED BY MEMBER AND PROLIFIC COLLECTOR OF ALARM CLOCKS DENNIS SAGVOLD.

A BIG THANK YOU TO DENNIS!!!

Dial is a Pheasant Hunting Scene with one Hunter at 7 o'clock holding a Pheasant, and another hunter at 3 o'clock with a dog and a gun. At 10:00 o'clock is a window; when a pheasant flies by the man raises his gun to shoot. When the pheasant flies away he lowers his gun. The action keeps repeating until the clock winds down.

The clock is nickel plated with a brass top ring and brass legs.

5 ½ inches tall to top of ring. Time track is 3 ½ inch in diameter

Manufactured by Union Clock Co. Furtenwagen, germany whose name was registered 10-Dec, 1894

SETH THOMAS ANVIL with BLACKSMITH ON THE LEFT

If you have a Seth Thomas Alarm clock "The Anvil" Please check it. Every Anvil or Anvil clock ad shows the Blacksmith on the right side. This clock belonging to Dennis Sagvold has the blacksmith on the left. It is all Seth Thomas including the trademarked movement.

Was this a prototype? Any information would be appreciated!!!

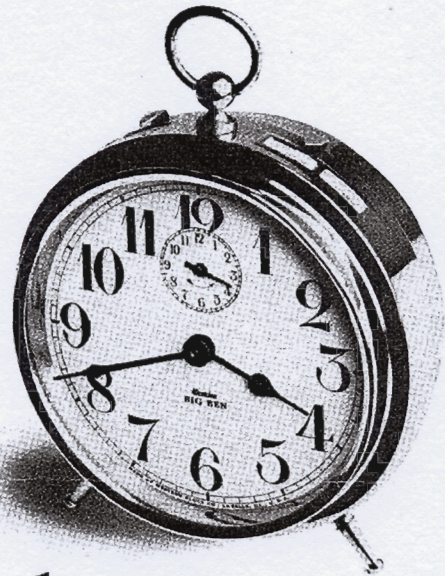

Are there more out there? If you have one with the Blacksmith alarms on the left please contact the Howard Banta Alarm Chapter 178. Send pictures or information to Rlink3@juno.com or by mail to Chapter 178

DENNIS'S LATEST ADVERTISING CLOCK

New Haven Advertising clock

A Westclox ad, Can you guess the year (hint look at the price quoted in the ad)?

Sixty years ago we made a clock that lasted too long.

(We're still making the same mistake.)

In 1908 we invented an alarm clock that ran with the regularity of the solar system, and rang like Reveille.

We called it the Big Ben, and we built it to last. It quickly became the world's best-selling alarm.

If you have, or inherited, one of our originals, set it in good health and we'll see you in the Twenty-First Century.

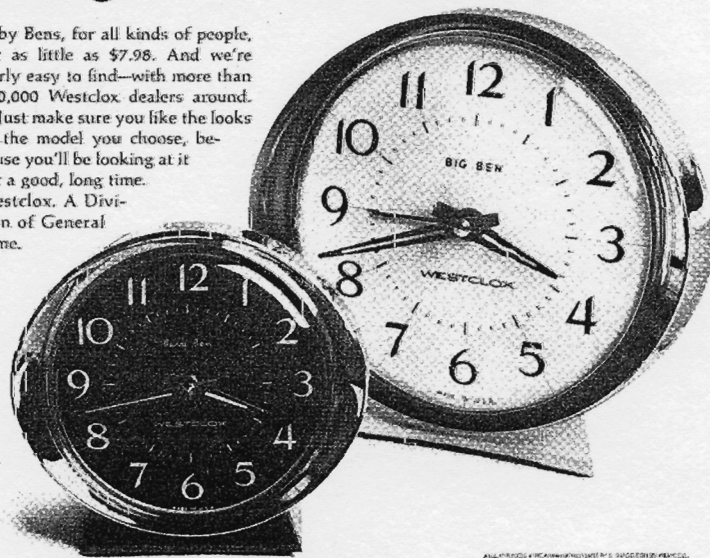

If you didn't, look us up. We're still making clocks that last, and because of it, we're the world's largest maker of timepieces. We make all kinds of new and improved Big and

Westclox.

Baby Bens, for all kinds of people, for as little as \$7.98. And we're fairly easy to find—with more than 100,000 Westclox dealers around.

Just make sure you like the looks of the model you choose, because you'll be looking at it for a good, long time.

Westclox. A Division of General Time.
