

Peace Pipe Chapter 83 Minutes  
April, 11, 2021

**Present (including officers and guests) : 14**

President Jerry Tiemans	Raul Rodriguez, Secretary	Treasurer Dave Hubbard
Farmer, John	Hill, Don	Jancarich. Paul
Krueger, Norm	Krueger, Joyce	Kwiatkowski, Paul
Kwiatkowski, Terry	Miller, Bob	Murray, Harry
Schrum, Fred	Wagner, John	

Meeting was called to order at the St John Township Center at 7:00 PM by President Jerry Tiemens and opened with the Pledge of Allegiance.

Meeting proceeded with “thought for the day” presented by John Wagner. The colorful theme was military enrollment age-restrictions. What would be the impact of sending time-tested folks instead of young ones off to war. Much humorous commentaries.

Paul Jancarich offered a story about fixing clocks of sentimental value with several member commenting on having done this free as the spirit moved them.

Minutes read from last meeting and accepted by vote.

Treasurer reported chapter funds as \$789.18.

Discussion ensued on mart questions, informationals, and other ways to attract new members to our chapter. Library informationals are still restricted until libraries are formally open. Dave Hubbard suggested if we plan an activity (eg clock-based museum trip) and advertise it, this may help raise awareness of our chapter to the general public. Terry Kwiatkowski noted the Kankakee (IL) weekly farmers-market has different activities or presentations; not necessarily simply selling products. She wondered if farmers-markets physically close to our chapter had similar gazebo-housed presentation opportunities

President Jerry made a pitch to encourage membership in the national.

**Show and Tell – T**

As Paul Kwiatkoswki prepared to share with us his “T” item, his wife made sure he remembered that he brought her (**T**erry) to the meeting. Paul formally presented his US Time Corp (TIMEX) stainless-steel automatic shock-resistant in great condition.

Meeting adjourned 7:30PM followed by knowledge-sharing from John Wagner and Norm Kreuger.

Norm's lesson was on how to fit new hands on a pocket-watch and re-case it. The movement he demonstrated had a bent second-hand post which he showed us how to accommodate. Very risky to try and straighten out a bent second-hand post. Norm shared an article by Henry B Freid on watch crystals discussing among many topics the ligne measurement. Norm explained the different aspects of choosing suitable hands, a suitable crystal, then demonstrated its mounting.

John's lesson was on remounting a clock back in its case. This particular clock that he demonstrated had bells for chimes, and a separately-plated mount for the chime train.
