Know how there are those disappointments in life that you just have to live with? Well, one of mine was missing Jim and Karl Burghart's demonstration on veneering. I always like attending our meetings, but from what I hear I missed a great one - a thorough demonstration of all aspects of veneering. So thank you Jim and Karl - two brothers that keep the world of clocks ticking!

Speaking of working on clocks, we are all involved in one aspect or another of *working on* clocks and watches, whether doing veneer work on cases, repairing/maintaining works, or buying them and getting them ready for reselling. But how often do you hear of someone *making* clocks, and gorgeous ones at that! Well, one of our members, John Wilman, does just that! He's currently completing one of his clock creations and will show it to us and tell us about it at our **June 8 meeting**. So be sure to put this meeting on your calendar. Believe me, I've seen some of the astonishing clocks John has made, and you do not want to miss this one!

Also, one last reminder to plan on attending the NAWCC national convention in Springfield, Mass, June 27 - 30. This is your opportunity to attend a national convention right in your back yard.

See you in June ... Jim
